

# PROPHETESS? KNOW YOUR PLACE

## YAHWEH SAYS IT:

I do not care what they say or how they translated the Written Word in this. How could I say this? There should be no labeling of an "ess" at the end of My office placement. Man-made rules have separated the office of the Prophet by gender. I will give new entries as to what prophets really are. There is one prophet trait; both men and women use that placement. I do not look at the sexual organs to determine how I speak. The Great Holy Spirit deals with both genders equally in hearing from Him and will not give a different type of word to one gender over the other.
